HAVAL JOLION

SAZGAR

GWM

Built for the world, by the world.

GWM is a world-renowned vehicle manufacturer and the parent company of HAVAL. At GWM, everything we do is grounded in our corporate philosophy: 'improving little by little, every day.' From building world-class research and development systems, which enable continuous innovation, to following the 'excessive investment' principle, which drives industry leadership, we relentlessly put our philosophy into practice.

HAVAL is a global SUV specialist and part of the rapidly-growing GWM group. We are proud to make vehicles that combine the best components, technology and safety features from around the world. With over 7.5 million sales to date in more than 60 countries (and counting), we are the No.1 SUV brand in the world's largest market and have been for the past 12 years. We attribute our success to passion, drive and a commitment to listening to our customers.

SAZGAR

SAZGAR was established in 1991 and went public in 1994. It has more than 1000 employees. SAZGAR quickly became a household name in the automobile industry, with over 30+ years of experience. SAZGAR is proud to be the first electric 3-wheeler manufacturer in Pakistan and the only OEM from Pakistan to export its indigenous vehicles to 30+ countries including Japan.

BRAND VALUE

In March 2018, an international branding valuation institution released the Brand Finance Top 100 Most Valuable Auto Brands 2018. The HAVAL brand surpassed prestigious international brands such as Ferrari and Aston Martin rising to 16th place & becoming the most valu/able Chinese car brand world over.

China's SUV Sales Crown for 12 Consecutive Years

The First Chinese SUV Brand with Sales Volume of 9 Million

Global Professional SUV Brand

HAVAL TECHNOLOGY CENTER

HAVAL Technology Center covers an area of 250,000 m^2, with a floor area of 260,000 m^2. HAVAL has a R&D team of more than 7,000 people, including over 100 overseas technical experts, and 14 types of large-scale comprehensive laboratories such as environmental wind tunnel laboratory, high-altitude environment simulation laboratory, EMC laboratory and vehicle four-wheel drive NVH semi-anechoic laboratory.

BOLD DESIGN

ICE

Pure joy, every time
you start the vehicle

GWM SPENDS $1B

ON THE NEW HIGH INTELLIGENT MODULAR TECHNOLOGY L.E.M.O.N PLATFORM

High Performance, High Safety, High Ductility and Lightweight

L.E.M.O.N PLATFORM

Jolion is built on Great Wall Motors' latest billion-dollar global platform which is called 'L.E.M.O.N' – for lightweight, electrification, multi-purpose, omni-protection and network. It is designed to meet the latest efficiency, power and safety standards. The Jolion sits on a new modular (stretchable) architecture with INDEPENDENT SUSPENSION at each end, NEW ELECTRIC-ASSISTED STEERING, and a NEW OFF-THE-SHELF ESP SYSTEM. Haval also claims to have fitted seven "NVH ACOUSTIC PACKAGES" to cut road and wind noise, and to have produced the body from high-strength thermoformed steel with 2000 MPa of yield strength in parts.

Mechanical Structure

Lighter mechanical structure, lower vehicle fuel consumption, multi-wheel chassis tuning, bringing better driving comfort.

4G15K Engine

Enhanced torque brings stronger power output, letting the vehicle standby and ready to go at any time.

Transmission

7DCT transmission adopts a low energy consumption system, with high transmission efficiency, stable performance and better NVH performance.
